

iOS Icon Grid Template (Standard)

Circle container (touch target): 44 × 44

Icon glyph box: 24 × 24

Rules: center optically; no gradients; no shadows; keep details $\geq 2\text{px}$; single style (solid OR stroke).

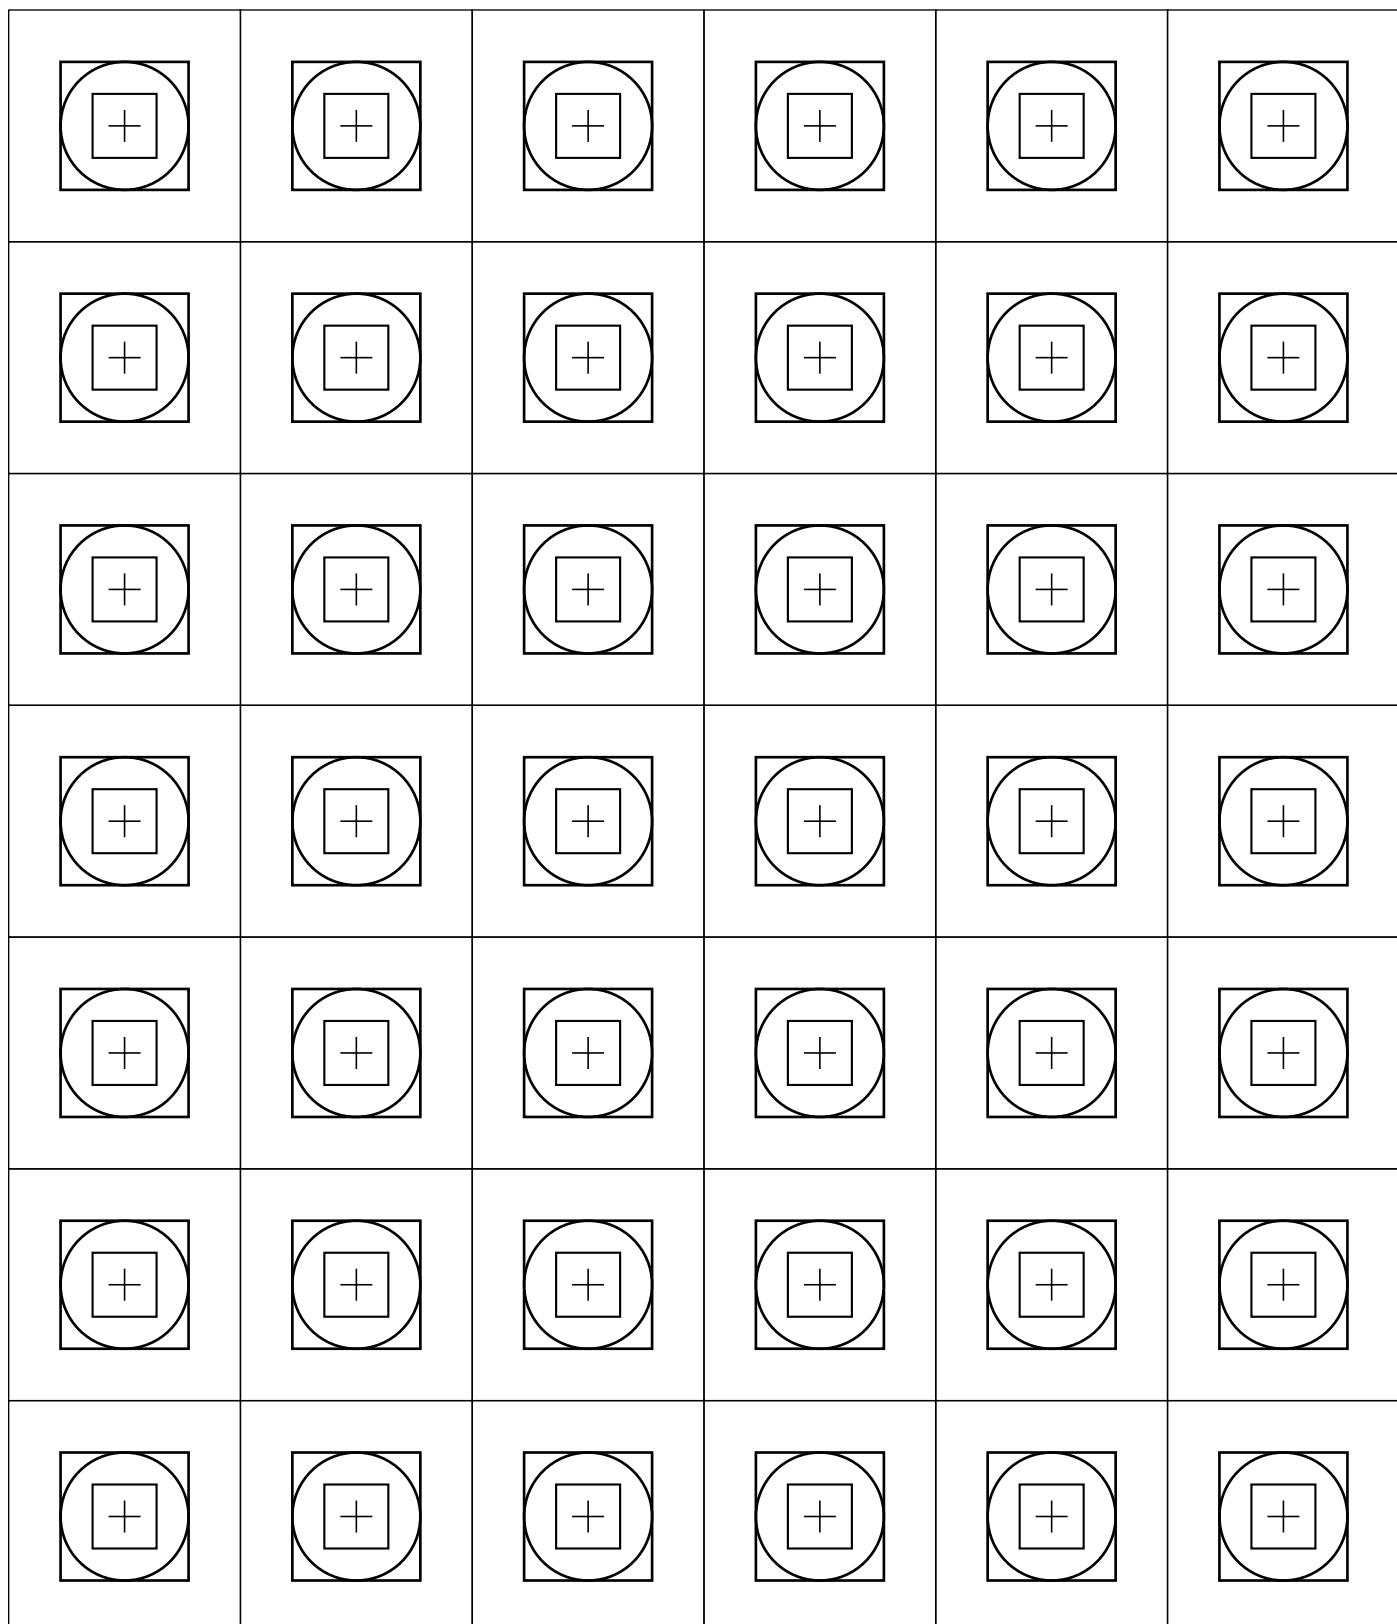

Android Icon Grid Template (Standard)

Circle container (touch target): 48 × 48

Icon glyph box: 24 × 24

Rules: center optically; no gradients; no shadows; keep details $\geq 2\text{px}$; single style (solid OR stroke).

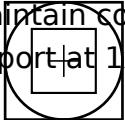

Quick Reference (iOS + Android)

Locked sizes:

- Icon glyph: 24 × 24 (both platforms)
- iOS touch target / circle container: 44 × 44 pt
- Android touch target / circle container: 48 × 48 dp

Implementation notes:

- ~~Keep labels visible in navigation (avoid icon-only).~~
- Align icon optically (some shapes require micro nudges).
- ~~Maintain consistent stroke weight (if using stroke) across the entire set.~~
- ~~Export at 1x/2x/3x for iOS; mdpi-xxxhdpi for Android (or vector where appropriate).~~

iOS 44 / 24

Android 48 / 24
